

EconNet Workshop Pécs

March 27-28.

Welcome at the EconNet Workshop Pécs 2025!

The third round of the EconNet Workshop Pécs events in 2025 gathers recent and ongoing contributions from experts in network and innovation economics from Hungary and beyond. This year's event focuses on the challenges of innovation and development in the context of networked and global systems such as supply chains, knowledge and social networks, trade and production systems, when maintaining or building resilience within these systems or networks gains priority.
