- attend any of the full-time *BSc Business Administration*, the full-time *MSc in Applied Management* or the *MSc Enterprise Development and Entrepreneurship* programmes at the Faculty of Business and Economics, independently on the financial background (state-financed, fee-paying or Stipendium Hungaricum),
- finished at least two semesters at the Faculty (in any of the above-mentioned programmes), where they gained at least 54 credits in total,
- gained at least 90% of the time-proportionate credits according to the programme structure,
- have a grand average of at least 4.00 in the last two semesters (the average of the last two semesters' grand averages should reach 4.00),
- did any kind of scientific work (publication, participation in professional contests, etc.) and/or any kind of social/community activities (having a role in student organizations, participating in Faculty events etc.).

Applications will be evaluated by a Committee established by the Dean, where evaluation will be based 70% on your grand average, 20% on your scientific work and 10% on your social/community activities.
