

CALL FOR APPLICATION

The University of Pécs Faculty of Business and Economics calls for applications for participating in the Pannónia Scholarship Program Student Mobility for Learning Programme for the spring semester of the 2025/2026 academic year

The object of the call for applications:

Long-term student mobilities for study purposes are student mobilities based on inter-institutional agreements, implemented with the purpose of obtaining credits, and directed to specific target countries, the duration of which is a minimum of 2 months and a maximum of 5 months.

Student mobilities for academic purposes can be implemented in any study area and cycle, including doctoral training. The study period abroad must be part of the student's study program aimed at obtaining a diploma within any study cycle, and the sending institutions must accept it and fully comply with the curriculum structure in terms of the time of student mobility in a proportional manner. The credit acquisition and recognition process must be recorded in the mobility agreement of the student participating in the mobility.

Within the Pannónia Scholarship Programme, students studying abroad **also enroll at home, establish active student status, pay any tuition fees at their home institution**, and receive their regular scholarship for the duration of their stay abroad.

Duration of study mobility abroad: **minimum 2 months - maximum 5 months (60-150 days)**

Period of study mobility: December 27, 2025 - July 10, 2026

Currency of the scholarship: **HUF**

Scholarship disbursement: **90% pre-financing – 10% post-financing**

Pannónia Scholarship Program students studying abroad:

- spend 2-5 months abroad (depending on the year they are in and the partner institution);
- do not pay tuition fee at the receiving institution; however may be obliged to pay registration/administration fee (mainly at German universities);

- enrol at the home university, establish an active student status, pay any applicable tuition fees to their home university, and receive their grants for the period of studying abroad;
- **do not obtain their degree before ending the mobility;**
- 100% credit recognition (credits earned abroad are 100% accepted by PTE)
- The program/PTE/Sending Faculty guarantees recognition of the credits earned abroad for the students: the activity carried out during the student's study mobility must be accepted by the sending institution and must fully comply with the curriculum structure, thus avoiding possible slippage, which is one of the biggest deterrent among students.
- The conclusion of the Support Agreement is only possible if there is a Learning Agreement signed by all three parties. Completion and compliance with the courses agreed in the Learning Agreement is binding for both the student and the institutions.
- Diverse mobility options available across the globe!

Thanks to the extensive mobility options of the Pannónia Scholarship Program, **everyone can find what best suits their professional career path.**

The grade points are calculated on the basis of the difference between the corrected credit index of the applicant's last accomplished semester - in which he or she completed at least 18 credits - and of the cumulate corrected credit index of the particular major with the following equation:

$$50 \times \frac{\text{Applicant's corrected credit index} - \text{Cumulate corrected credit index of the major}}{\text{Cumulate corrected credit index of the major} / 2}$$

rounded to a whole, but **a maximum of 50 points**.

In the case of a tie in the final scores of several students, the academic result will be the deciding factor, and if it is also the same, the score on the motivational video will be the basis for the decision. In the event of a further tie, the points obtained in the language examination will be taken into account, followed by the academic activities and finally the public activities.

The evaluation process is as follows: the Exchange coordinator of the faculty, with the assistance of the Student Union, will determine the score for each application and will then carry out the institutional matching and finalise the evaluation of the applications. The results are communicated to the members of the Faculty Committee for Foreign Affairs, which decides on the ranking by vote of the evaluation committee. The results may be made public only after the vote of the Committee of Foreign Affairs.
