Lecturing experience

Courses that I have lectured in include corporate finance, investment, business economics, finance cases, portfolio management on BA/MSc/MBA level. I have experience in teaching full time as well as in part time programmes.

Research Grants

Grants in open competition to funding bodies, with proposals subject to peer review

2008 – American Chamber of Commerce Corporate Governance Committee
research/educational grant

Current research interest

I am currently interested in issues of comparative corporate governance, its implications for transition economies. I am focusing on non listed companies, role of venture capital in the system of corporate governance and on the viability of self regulation in transition economies. I have experience in large scale management surveys, data collection, processing, analysis (Eviews, SPSS).
